

CORPORATE PROFILE

ABOUT US

KNOW WHO WE ARE

Delta Waves is the audiovisual technology distributor you can trust in the KSA.

Our passion for audio, video, lighting and control equipment makes us much more than just another reseller, we are your preferred local partner in creating exceptional experiences.

The Delta Waves team of experts has a deep-rooted understanding of every technical element important for installations. This knowledge has been built up over decades specifying, designing and installing everything from LED displays and outdoor speakers to technical furniture and lighting solutions for some of the most important landmark projects across the Middle East. We can combine our expertise with the latest audiovisual technology with your concepts to bring your project to life in a way that will surpass your expectations, delivering an exceptional result every time.

More than this, what sets Delta Waves apart is the support that comes with each project. We don't want to just sell you equipment, we want to make sure that you have the right technology for your needs and that it will keep working for you every day. The combination of our knowledge, the power of our brands and the support that we will offer you makes Delta Waves the perfect partner for you in KSA.

OUR SERVICES

Delta Waves offers more than just professional audio, video, lighting and control products, we have the technical understanding to back up our sales with unprecedented levels of support.

Our local KSA team will be able to help you at every stage. Whether it is with our unsurpassed product knowledge to help you create the proper AV system for your project or rental solutions, continuous professional training, or giving you hands-on experience with the equipment before purchase, the Delta Waves team is here to support at every corner.

The unparalleled professional services we provide make Delta Waves the first reliable choice for audio-visual professionals in KSA and the number one partner for AV manufacturers.

AND THATS NOT ALL

OUR SOLUTIONS

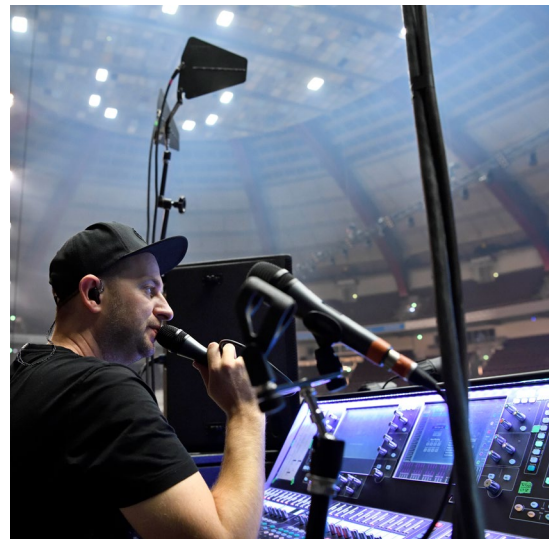

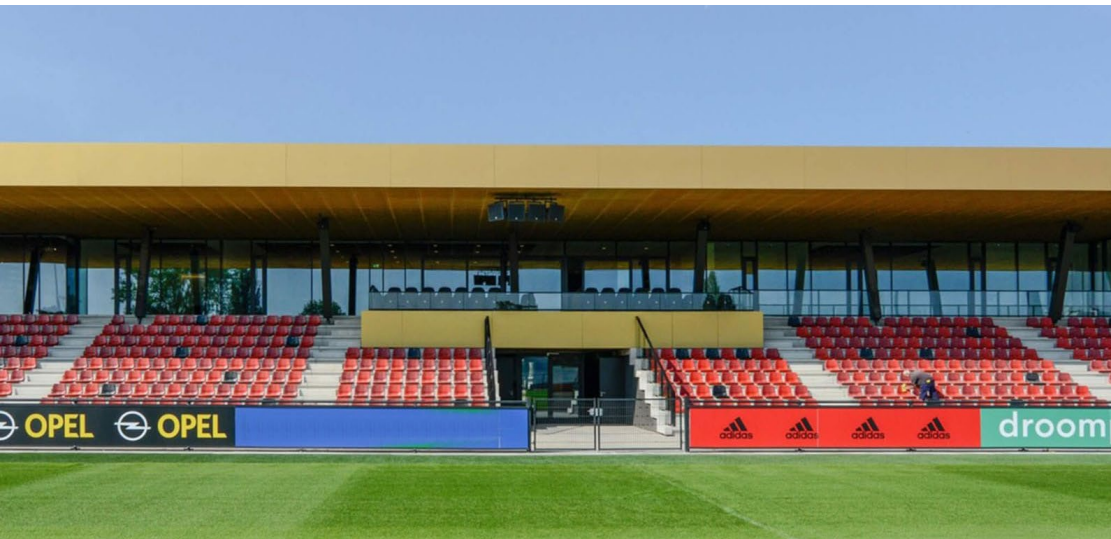

Electro-Voice

AUDIO

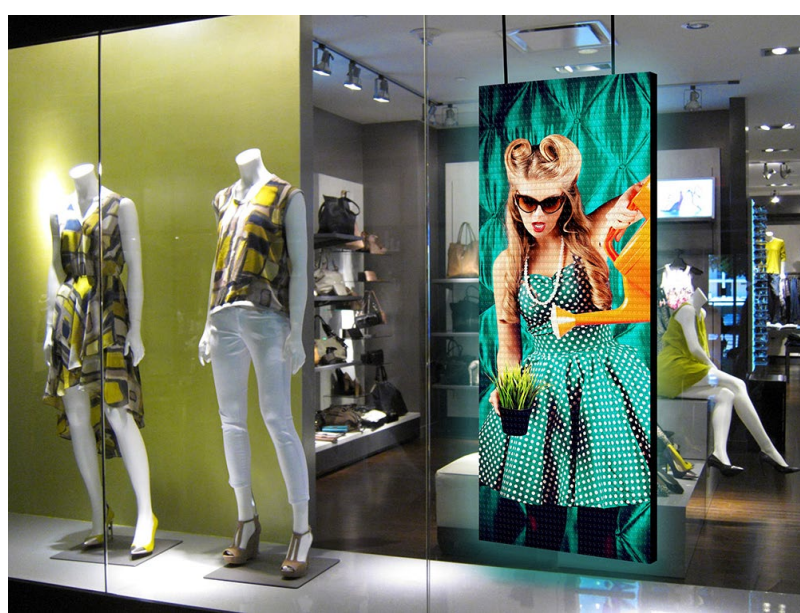

At Delta Waves we understand the importance of high-quality audio, so we have partnered with some of the best manufacturers in the business to give you the best choice of sound for your projects, events, or personal endeavours. Our team is ready to work with you to design and supply the audio solution that's right for you.

VIDEO

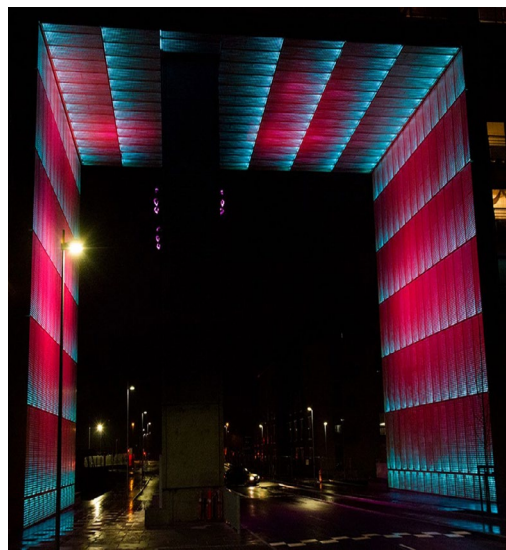

The expert video team at Delta Waves knows that nothing captures people's attention like great video. Whether it is for large-scale outdoor media facilities, indoor display units, broadcast studio, or control room, we have the technology to make your project look stunning and the knowhow to help you deliver above your client's expectations.

LIGHTING

Lighting should always be one of the elements addressed from the very beginning of your project. Delta Waves are experts in the lighting industry. Accompanied by our partners who can cater to various applications, covering, but not limited to the fields of theatrical, studio, entertainment and architectural lighting - our division is ready to support and suggest the proper solutions for your lighting needs.

CONFERENCE

Conferencing equipment plays a much bigger role in business than it has ever done before. From remote meetings with new potential customers to keeping everyone in different cities up to date with the way business is progressing, they are the vital tool to keep everyone connected. From boardrooms to huddle spaces and parliaments to lecture theatres, Delta Waves experts have the solutions that will deliver to your project

CONTROL

The heart of any audiovisual system is its control. This provides the brains of the operation and ensures that the AV system is running as specified. At Delta Waves, we have partnered with some of the AV industry's leading control suppliers, while our accessories brands ensure that every installation meets the requirement your clients would expect.

A large, stylized, light blue 'V' logo is centered in the background, spanning most of the width and height of the page. The 'V' is composed of two thick, slightly offset strokes, creating a sense of depth and movement.

THANK YOU!
