ARTOME

Artome converts any space into a learning or a collaborative working environment without installations or cabling. Artome can change a living room into a movie theatre or a concert hall. Instead of difficult installation processes our all-in-one solutions only require you to plug them into an electrical outlet.

ARTOME X20

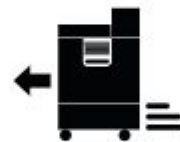

Double the experience

Artome X20 transforms large spaces for events and experiences with highly versatile Epson laser projector and embedded sound system. It is movable and installation free solution that you can easily operate with your laptop through HDMI. Artome X20 brings ease of use to audiovisual technology with plug and play features.

ARTOME M10

Hi-tech meets organic forms

Artome M10 displays up to a 150" image with an Epson laser projector, produces pure sound through an embedded sound system and enable local presentation and easy videoconferencing with an integrated camera and microphones. With the help of Artome any space can be transformed for presentation, learning and much more.

ClickShare

Barco ClickShare transforms collaboration with seamless wireless connectivity, enabling users to share content from any device with ease. Its intuitive interface fosters real-time collaboration, allowing multiple participants to share screens simultaneously. Integrated with top video conferencing platforms, ClickShare ensures remote attendees can join meetings effortlessly. With enterprise-grade security and reliable wireless technology, it safeguards sensitive information and ensures uninterrupted connectivity. ClickShare empowers teams to collaborate effectively, share ideas effortlessly, and drive better business outcomes in any workspace.

Video bars for wireless collaboration

Introducing ClickShare wireless conferencing video bars, a revolutionary solution designed to enhance collaboration in modern workplaces. With sharp views and crystal-clear audio, these video bars empower seamless communication among team members joining from various locations.

Wireless Presentation

Empowering You, ClickShare enables seamless sharing from your own device, whether it's a laptop, tablet, or smartphone, using the free ClickShare Mobile App or screen mirroring with Airplay, Miracast, or Google Cast. Moreover, meetings become more interactive with touchscreen compatibility, allowing for easy interaction with content through blackboarding or annotation.

DA-LITE.

A brand of **legrand**

Founded in 1909, Da-Lite screen company is leading producer of high quality commercial and residential projection screen worldwide. Starting in the 1920s, Da-Lite began to develop and mass produce what are now known as traditional screen products: portable, manual, fixed and electric screens for home and commercial use in the dawn of the AV age. Da-Lite's backbone of industry prowess during this 1920s-1950s era was the in-house development of screen surfaces specific to projection technology of the time, a practice Da-Lite continues to use in the present day R&D efforts of projection technology.
